

How long have you got to live?

How long have you got to live? No one knows except The Lifeometer®. Male or female, young or old The Lifeometer® tells you when your time is up. Will you have enough money to live on?

If you made it this far... how many more years can you expect to live?

Step 1 Select age in a particular year
Step 2 See how many more years you can expect to live if you have made it this far

For example, a man who makes it to 70 in 2046 can expect to live until he is 88.9
